Mobile: +91-7488413141

SKILLS

- **Languages:** C++, Python, Java, C, JavaScript
- **Database Management:** MySQL
- **Frameworks & Libraries:** HTML and CSS, NumPy, Pandas, Matplotlib, Seaborn
- **Tools/Platforms:** VS Code, Excel, Power BI, Linux
- **Soft Skills:** Problem-Solving, Team Work, Adaptability, Quick Learning

PROJECTS

Chatbot | [GitHub](#)

May '25

- Built an AI-based clothing recommendation chatbot using Flask as the backend and integrated Google Generative AI (Gemini) to generate personalized outfit suggestions and budget-friendly fashion deals.
- Developed an AI fashion chatbot using Flask and Gemini to deliver outfit suggestions and budget-friendly styling tips through an interactive UI.
- Designed a clean, responsive chat UI for seamless multi-device use, enabling quick access to outfit ideas, deals, and styling suggestions.

Tech: HTML, CSS, JavaScript, Flask

Academic Trends Analysis of VIT Vellore Students | [GitHub](#)

Mar '25

- Conducted academic performance analysis on VIT Vellore data to identify trends across branches and years, using CGPA patterns and distribution insights to highlight top-performing groups.
- Analyzed CGPA, branch, and academic year data using NumPy, Pandas, Matplotlib, and Seaborn to uncover key academic insights and student performance patterns.
- Developed visual analytics by plotting CGPA distributions to interpret overall performance trends and compare academic variations across the dataset.

Tech: NumPy, Pandas, Matplotlib, Seaborn

TRAINING

W3GRADS | [W3GRADS](#)

Jun '25 – Jul '25

- Successfully completed an advanced Data Structures & Algorithms program, mastering Arrays, Linked Lists, Stacks, Queues, Trees, Graphs, Dynamic Programming, and in-depth Complexity Analysis.
- Practiced problem-solving techniques with real-time coding sessions and weekly assessments
- Strengthened problem-solving and coding skills by applying DSA concepts to real world scenarios and implementing optimized solutions.

Tech: Master DSA with Java/C++

CERTIFICATES

- Computational Theory: Language Principle & Finite Automata Theory | [INFOSYS](#) Aug '25
- ChatGPT-4 Prompt Engineering: ChatGPT, Generative AI & LLM | [INFOSYS](#) Aug '25
- Master DSA with Java/C++ | [W3GRADS](#) Jun '25
- The Bits and Bytes of Computer Networking | [Coursera](#) Aug '24
- Introduction to Hardware and Operating Systems | [Coursera](#) Aug '24
- Cloud Computing | [NPTEL](#) Jan '24

ACHIEVEMENT

- 3 – star in C++ on HackerRank
- Solved **100+ Data Structures and Algorithms problems** on LeetCode

EDUCATION

Lovely Professional University

Bachelor of Technology - Computer Science and Engineering; CGPA: 6.6

Phagwara, Punjab

Aug '23 - Present

Dwarika High School

Intermediate; Percentage: 66.2%

Patna, Bihar

Apr '21 – Feb '23

Mother International Academy

Matriculation; Percentage: 70.8%

Patna, Bihar

Apr '20 – Mar '21
